

MUSTAQBAL TECHNICAL SCHOOL

JULY 2026 MONTHLY PROGRESS REPORT

Reporting Period: 1 July 2026 – 31 July 2026

1. Activities Implemented

1.1 Continuation of Training

Following the successful enrollment and commencement of training in June 2026, formal training continued normally throughout July across all three vocational training programmes – Tailoring, Cookery and Beverage, and Mobile Repairing. No new registration or placement test activity was required during this period, as the existing cohort of **245 trainees** (43 male, 202 female) continued their training uninterrupted.

Both theory and practical sessions ran according to the approved training timetable, with trainers delivering structured lessons and hands-on workshop practice each training day.

1.2 Theory Skills Training

Theory sessions were conducted normally across all vocational programmes throughout July, building on the foundational knowledge introduced in June.

Tailoring

Trainees continued theory instruction covering pattern drafting, fabric selection, garment design principles, seam finishing techniques, and quality control standards, building on the earlier lessons in measuring, cutting, and machine operation.

Cookery and Beverage

Theory sessions advanced to menu planning, portion control, nutrition basics, costing and pricing of dishes, and customer service standards, in addition to reinforcing kitchen hygiene and food safety practices.

Mobile Repairing

Theory instruction progressed to circuit board fundamentals, common fault diagnosis, software troubleshooting, and repair documentation, building on the earlier lessons on components, tools, and disassembly procedures.

1.3 Practical Skills Training

Practical, hands-on workshop sessions ran alongside theory classes for all three programmes, giving trainees the opportunity to apply what they learned under trainer supervision.

Tailoring

Trainees practiced garment construction on sewing machines, including seam allowances, hemming, attaching fasteners, and completing simple garment projects from start to finish.

Cookery and Beverage

Trainees carried out practical kitchen sessions preparing dishes and beverages, practicing food presentation, plating, and proper use of kitchen equipment under trainer guidance.

Mobile Repairing

Trainees carried out hands-on repair exercises, including phone disassembly and reassembly, fault identification, and basic component-level repairs using standard repair tools.

1.4 Attendance Monitoring

Daily attendance registers were maintained throughout July across all five class groups (Tailoring Morning and Afternoon, Cookery and Beverage Morning and Afternoon, and Mobile Repairing). Trainers recorded attendance at each session, while the Centre Manager conducted routine monitoring to promote regular attendance and follow up on absenteeism where necessary. Overall attendance remained normal and consistent with expected participation levels.

1.5 Coordination and Programme Management

Regular coordination meetings were held between the Centre Manager and trainers throughout July to review programme implementation, discuss operational matters, monitor training progress, and plan upcoming activities. These meetings ensured continued smooth delivery of the TVET programme.

1.6 Documentation and Progress Monitoring

All programme activities conducted during July were documented through attendance registers and routine monitoring records. Progress was continuously monitored to ensure that implementation remained consistent with the approved work plan and project requirements.

2. Training Statistics

The table below summarizes the status of the programme during the reporting period.

Indicator	Achievement
Total Trainees Enrolled (carried forward from June)	245
Male Trainees	43
Female Trainees	202
Training Programmes	Tailoring, Cookery and Beverage, Mobile Repairing
Training Mode	Theory and Practical sessions conducted daily for all three programmes
Training Status	Normal – all classes ran as scheduled throughout July

Summary

July 2026 was a month of normal, uninterrupted training delivery. Building on the registration, placement testing, and enrollment completed in June, all 245 trainees (43 male, 202 female) continued their studies across the three vocational programmes – Tailoring, Cookery and Beverage, and Mobile Repairing.

Both theory and practical sessions ran according to the approved timetable throughout the month, with trainers delivering structured lessons and supervised hands-on workshop practice each training day. Daily attendance was monitored across all five class groups, and regular coordination between the Centre Manager and trainers ensured the programme continued to run smoothly and consistently with project requirements.

No disruptions to the training schedule were recorded during the reporting period, and the centre remains on track with the approved TVET programme work plan.
